PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with a strong interest in Web Development and Software Engineering. Proficient in Python, JavaScript, Django, HTML, CSS, and MySQL, with a solid foundation in Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Robotics & IoT, Networking and Object-Oriented Programming (OOP). A motivated learner with strong problem-solving skills, with a strong foundation in System Design, Robotics, and IoT, eager to continuously learn new technologies, and grow professionally in the field of development, Networking and IoT.

EDUCATION

B.Sc. in Computer Science & Engineering <i>University of Asia Pacific, Dhaka</i> CGPA: 3.62	2022–Present
Higher Secondary Certificate (HSC) <i>Notre Dame College, Dhaka</i> GPA: 5.00	2019–2021
Secondary School Certificate (SSC) <i>Motijheel Govt. Boys High School, Dhaka</i> GPA: 5.00	2018–2019

TECHNICAL SKILLS

Languages	Python, C, JavaScript, SQL, HTML, CSS
Frontend	HTML5, CSS3, Bootstrap
Backend	Django, Django REST Framework
Databases	MySQL, SQLite
Tools	Git, GitHub, XAMPP, phpMyAdmin, VS Code, Figma, Arduino
Robotics & IoT	ESP32, Arduino, Embedded System, Microcontrollers
Core Competencies	DSA, OOP, DBMS, REST APIs, Problem Solving, Software Engineering

PROJECTS

Resume Screening & Candidate Matching System <i>Python • PyTorch • DistilBERT • SBERT • Scikit-learn</i>	GitHub
- Built an AI-powered resume screening tool using NLP that extracts skills and experience from resumes with automated feedback. - Benchmarked candidates against job requirements and ranked applicants based on relevance scoring.	
MatriNest- Pregnancy Care & Wellness Portal <i>Python • Django • Bootstrap • SQLite/MySQL</i>	GitHub
- Developed a Django-based web application to support expecting mothers through pregnancy with personalized guidance. - Implemented health tracking, informational resources, and progress monitoring features.	
Lost & Found Item Management System <i>PHP • MySQL • XAMPP • phpMyAdmin</i>	GitHub
- Built a database-driven web app for reporting, searching, and managing lost and found items. - Designed a normalized relational database and ER diagram from scratch.	
Autonomous Line-Following Plant Watering Robot <i>Arduino • IR Sensors • Soil Moisture Sensor • Embedded C</i>	GitHub
- Built an autonomous robot that follows a predefined path using IR sensors. - Automated plant watering based on real-time soil moisture readings.	
Piezoelectric Footstep Power Generation System <i>Arduino • Piezoelectric Sensors • Embedded Systems</i>	GitHub
- Designed a microcontroller-based system to harvest electrical energy from human footsteps. - Stored and converted generated power for low-energy device usage using piezoelectric materials.	

CERTIFICATIONS

- Complete Cyber Security Course (Ostad) — 2025
- Complete CTF Course (UAP) — 2024

ACHIEVEMENTS

Business Idea Competition — ECDC Idea Season 4, 2024

Entrepreneurship & Career Development Club, University of Asia Pacific

- Reached the final round as a Finalist in a university-wide entrepreneurship competition focused on developing solutions to real-world problems through innovative business ideas.
- Advanced through multiple rounds — including an online screening, a hands-on workshop, and a final pitch presented to industry CEOs.

Compete ICPC in Regional Round. 2023

Compete Different Programming Contest, Olympiad and Secure Places with Achievements.

EXTRACURRICULAR ACTIVITIES

- Member, University of Asia Pacific Programming Club.
- Research Executive, University of Asia Pacific Robotics Club.

SOFT SKILLS

- Strong Communication Skills
- Analytical Thinking
- Deadline-driven Time Management
- Adaptability
